

STATE BY STATE MEAT CHICKEN PRODUCTION

Broiler production in 2015 (December 1, 2014 through November 30, 2015) totaled 8,686,600,000 meat chickens weighing 53,364,000,000 pounds, liveweight, according to USDA's "Poultry-Production and Value 2015 Summary."

Meat chicken production for 2015 by state, measured by liveweight pounds produced, was as follows:

Rank	State	Number Produced	Pounds Produced
1	Georgia	1,339,600,000	7,903,600,000
2	North Carolina	822,700,000	6,417,100,000
3	Alabama	1,082,900,000	6,172,500,000
4	Arkansas	962,000,000	6,156,800,000
5	Mississippi	722,500,000	4,551,800,000
6	Texas	608,700,000	3,773,900,000
7	Kentucky	307,700,000	1,784,700,000
8	Delaware	244,300,000	1,759,000,000
9	South Carolina	242,600,000	1,746,700,000
10	Maryland	303,500,000	1,730,000,000
11	Virginia	262,800,000	1,471,700,000
12	Oklahoma	217,000,000	1,432,200,000
13	Missouri	294,600,000	1,414,100,000
14	Pennsylvania	190,400,000	1,066,200,000
15	Tennessee	185,200,000	981,600,000
16	Ohio	80,400,000	450,200,000
17	Florida	65,100,000	377,600,000
18	West Virginia	93,700,000	356,100,000
19	Minnesota	46,400,000	278,400,000
20	Wisconsin	53,900,000	226,400,000
	Other States	560,600,000	3,313,400,000
Total		8,686,600,000	53,364,000,000
